- Materials: ABS, PP
- Working Temperature: -30°C (-22°F) to 35°C (96°F)
- Dimension: 116 x 138 x 99mm
- IP Protection: IP65 for the unit, IP44 for the adapter
- Light Features: thunder bolt with sound
- Indoor and Outdoor Use
- Power Output: 5V = 1000mA
- Stake Height: 7.09 inches (180 mm)

Quick Setup:

1. Remove all the components from packaging and saving packaging to store the projector light when not in use. Please make sure that there are 1 x Thunder Bolt Projector, 1 x Screw, 1 x Screw Nut, 1 x Bracket, 1 x Stake, 1 x Stand, 1 x Power Adapter and 1 x User Manual in the packaging.

2. Install the projector light:

- For optimal coverage, find a location where is no obstructions between the projector light and its projection surface.
- Fix the bracket into the projector light with screw, and then insert the stake or stand to the bracket in the right way.

Attention: Please be sure the projector light is unplugged before installation.

• Installation:

- (A) Insert the pointer on top of the stake vertically into the earth by holding the top of stake.
(Icon A)

Attention: Never attempt to push or pound at the stake if the earth is too hard.

- (B) Screw the bracket into the stake. (Icon B)

- (C) Fix the projector light on the bracket with screw and adjust to the appropriate angle. (Icon C)

Important: Please use stand instead of stake, when you try to use indoor or hard ground.

- (D) Connect the adapter to a power socket when ready to use. Unplug when not in use. (Icon D, E)

Note: The darker the area the light being used in, the brighter the projection. Try to stay away from areas with bright illuminating lights.

Operate the Function Knob

1. Twist "Thunder" knob clockwise to turn up the sound, anticlockwise to turn down the sound or close
2. Twist "Lightning" knob clockwise to increase the brightness, anticlockwise to decrease the brightness or close

Built-in Timer

The device is designed to automatically shut off after 6 hours lights working, and it will go into sleep mode for 18 hours and repeat the same operation thereafter.

NOTICE: The auto timer function will start to work once the light is plugged. If the user turns it off and turns on again working in the dark, the timer will re-start to work.

IMPORTANT SAFETY INSTRUCTIONS

1. No recommended for set-up or installation by children. As with all electrical products, exercise caution during handling and use to reduce the risk of electric shock. If the power cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
2. To reduce the risk of burns, fire, electric shock, or injury to persons, unplug from outlet before putting on or taking off parts.
3. Close supervision is necessary when this furnishing is used by, or near children, invalids, or disabled persons.
4. Use this furnishing only for its intended use as described in these instructions. Do not use attachments not recommended by the manufacturer.
5. Keep the cord away from heaters or other heated surfaces.
6. Do not operate where aerosol (spray) products are being used or where oxygen is being administered.
7. To disconnect, turn all controls to the off position, then remove plug from power socket.
8. The furnishing has not been evaluated for flammability or cigarette ignition resistance!
9. Route the power supply cord away from walkways, driveways and traffic areas to prevent trip hazards and damage to the power supply cord.
10. Do not shake.
